Art Unit: 2833

1. The replacement of sheet 9 of the drawings was received on February 22, 2005. This drawing is accepted by the examiner.

2. Claims 1-4 remain objected to because of the following informalities:

a. Claim 1 lacks antecedent basis for "the plurality of sheathed conductors arranged in parallel" on lines 5-6. It is suggested that "arranged in parallel" be moved from line 6 to line 3, after "conductors."

b. In claim 3, "drew out" should be changed to -folded back- as was done elsewhere.

c. Claim 4 lacks antecedent basis for "the sheathed conductors arranged in parallel" on line 4. It is suggested that "arranged in parallel" be moved from line 4 to line 3, after "conductors."

d. Lines 15-19 of claim 4 are unclear. The examiner believes that these sections are intended to describe the folding back of the two interconnecting parts and that a distal end portion is formed. Beyond that, the meaning is lost to the examiner.

Appropriate corrections are required.

2. Claims 1-4 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

3. This application is in condition for allowance except for the formal matters discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
